

Probability of Failure Modes z :
Equations (7),(8)

Prior (Π):
Dirichlet

$P(z_i|\Pi)$

Conditioning
on $z_i = e_k$

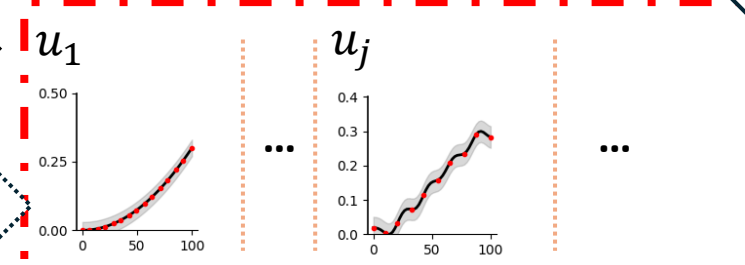

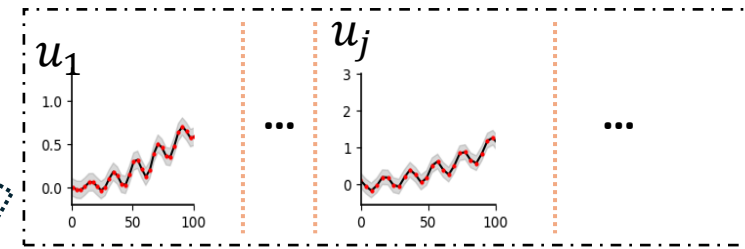

Mode 1

Mode k

Convolved Multioutput GP
Equations (2), (5)-(6), (9)

Underlying CM Patterns

Conditional Latent Processes
 $P(u_j|z_i)$

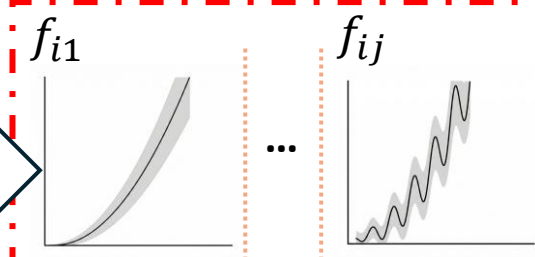

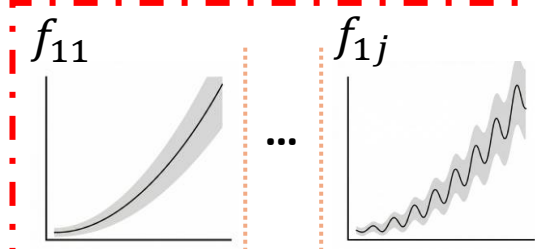

1st Sensor

jth Sensor

Individual latent CM Signals

Convolved Multi-output GP
 $P(f_{ij}|z_i = e_k)$

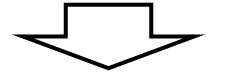

1st Sensor

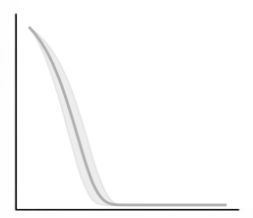

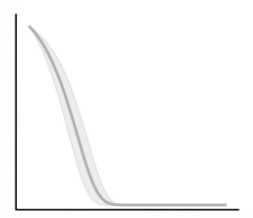

jth Sensor

Survival Probability
Equations (1),(3)-(4)

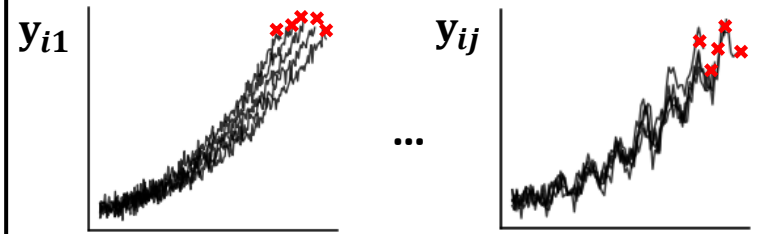

Priors (b, ρ):

$P(T_i|b, \rho, z_i = e_k)$

CM Signal Observations

Observations
(Data)

$i = 1, \dots, I$

Failure Times
